US Citizen

PERSONAL PROJECTS

Guess my number
- Generated JavaScript interactive game using HTML, CSS, and JavaScript.
- Programmed functionality using DOM manipulation.

Omnifood project
- Launched responsive single page application of food delivery service.
- Implemented CSS Flexbox Layout Module and CSS Grid with graphic design principles.

Braingain reading list
- Constructed React.js application that allows users to create accounts, login, edit their profile, and delete their account.
- Actualized users' functionality to add/remove books from their reading list. Books info comes from PostgreSQL database and was accessed using RESTful API.

EXPERIENCE

Software Developer Intern | Showing Guide   *Remote | Jan 2023 - Apr 2023*
- Devised and executed REST APIs to enable communication between the frontend and the backend.
- Integrated OpenAI API with real estate data sources and other external APIs.
- Performed with the team to ensure seamless integration of APIs and systems.

Software Engineer | Coding Temple   *New York, NY | Jun 2022 - Sep 2022*
- Engineered MERN stack social media application to share and read travel tips.
- Designed application using Python and Flask and Bootstrap with log-in/registration capabilities.
- Manufactured JavaScript application widget application that retrieves JSON data from public API to display current weather conditions and location.
- Crafted databases using SQL in PostgreSQL and Entity Relationship Diagrams.
- Created Ecommerce website and interactive game application using OOP (Python).
- Employed Axios for API calls with testing performed on Postman.
- Coded an application that takes and organizes notes with Java.

Software Engineer | TebeP   *Brooklyn, NY | May 2020 - Apr 2022*
- Developed and maintained functionality of the e-commerce site, reinforced program design, coding, and testing.
- Cooperated in conducting numerous complex coding reviews, collaborated with engineering teams and client representatives to ensure on-time completion of customer-focused projects.
- Boosted sales rate by 8% on the company website and increased the number of customers by creating a new website with extended functionality.
